- Other Business:

### Multi-Municipal Comprehensive Plan:

- Evaluate and select zoning definitions for submission to the MMCP/EPD.
- Outline an 'Official Map'
  1. Identify the locations of where the Township already owns stuff. This is probably, but not always, going to be a lot. If possible, provide lot and block number.
  2. Identify areas where future improvements are desired. If it's a park site, then a lot is probably appropriate; if it's a sidewalk for a trail connection, just delineate the needed corridor.
